21st November 2017

Dear Sir/Madam,

I am a third-year interaction design student at Strate - School of Design in Paris who is looking to gain some industry experience. I would like to do a four-month internship with X company starting in March 2018 and I am writing to you to see what opportunities there are.

As a recent graduate from EEMI with a bachelor in Web Design, I am passionate about new technologies and how they can improve user experience. My goal/objective is to be able to offer the best user experience to the largest number of people. That is why I chose to pursue further my studies and specialize in UX and interactive design at Strate College. During my studies and internships, I learned how to design and prototype web and mobile interfaces as you can see in my portfolio.

I co-created two cultural associations, Urban Muse Records and Parallele, both promoting music and arts with different mediums: websites, webradio and scenographies at events. This experience combined with my previous internships helped me develop strong teamwork skills and a keen interest in project management.)

I know X (name of company) has a strong reputation in the industry. Your company is one of the most innovative digital agencies (and won an award for X in 2010). Your inventive approach in Design Thinking provides your clients with cutting-edge products and services. I am particularly attracted by the exciting projects you have been working on for well-known companies (ex)

This is also a reason why I would like to work at X to improve my skills by learning from the expertise of your designers while contributing to the success of your company.

I believe my varied experiences, alongside my background in interactive design make me an ideal candidate/perfect fit for an internship at X.

Please find my CV and portfolio attached for your review. I look forward to discussing my application with you in further details and outlining how I can best contribute my skills and experience to benefit your company.

Yours faithfully,

Nicolas Mimault-Talagrand
